

I am an enthusiastic, optimistic, pro-active, and goal driven individual currently studying Digital Production, Design and Development at Barking Dagenham College. I possess the ability to make an excellent first impression and can work in an efficient and accurate manner in a fast paced service driven setting. I am an excellent team player with the ability to listen to others and communicate efficiently at all levels. Currently looking for a suitable position within a company which offers career progression and has a warm and friendly work place.

INTERESTS

In my spare time, I like working on my programming abilities by taking on challenging coding problems or learning new languages. It's a wonderful activity that stimulates my thoughts and sparks my enthusiasm for technology. Additionally, I enjoy going to the gym, which is a great compliment to my mental goals and keeps me in shape and balanced for daily life.
